

TFS 380

The TFS 380 Series is an alloy framed structure, pre-engineered to the highest quality standards, in addition to being designed to suit a wide range of applications including Aviation, Mining & Energy, Sport & Recreation, Industrial and Remediation.

The TFS 380 is designed with a high pitched roof and curved profile assembly ranging from 29m to 48m standard span. A modular design allowing for the construction of indefinite length, in addition to a wide range of width options, to meet your exact needs.

BENEFITS INCLUDE

-  Engineered for both permanent and interim applications
-  Long-lasting corrosion resistant alloy frame
-  Rapid installation and fully relocatable
-  Designed with additional finishing options, which include specialised fabrics, doors, windows, lighting and HVAC Systems
-  Fully modular building system, large clear span design
-  Translucent Fabric cladding option provides a well-lit, energy efficient, interior with reduced operating costs

TFS 380

Standard Fabric: Premium Ferrari 702S PVC (750 GSM) White Translucent

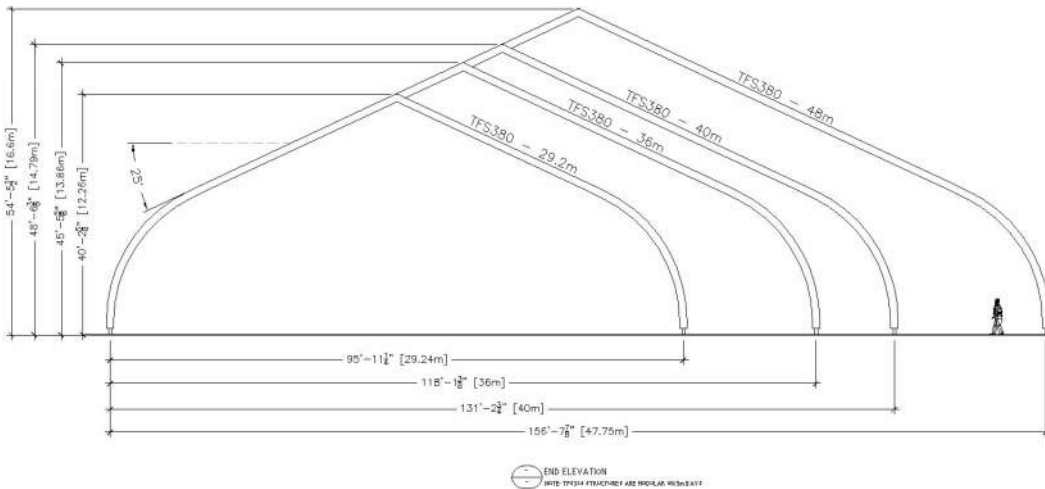

Fabric Warranty: 7 years

Frame: Galvanised two chord lace structural steel frame

Frame Warranty: 10 years

Engineering Standards: Meets all Local/International Engineering and Building Codes

Fabric Retardancy: NFP 92-507 M2
 NFPA 701 Test 2
 DIN 4102-1 B1
 BS 7837
 AS/NZS 3837 Group 1
 AS/NZS 1530.3

STANDARD SIZE OPTIONS

Width: (m)	29.2	36.0	40.0	48.0	Length:	Modular on 5m / 16'4" ft bays
(f)	95'11 1/4"	118'1 1/8"	131'2 3/4"	156'7 1/8"	Bay Spacing:	5m / 16'4" ft
Peak Height: (m)	12.26	13.86	14.79	16.60		
(f)	40'2 5/8"	45'5 5/8"	48'6 3/8"	54'5 1/2"		

FOUNDATION AND HOLD-DOWN OPTIONS

Anchors Bolts: Chemsets
 Cast-in Bolts

Steel Stake Option: for Interim Installations

Concrete Footings: Bored Piers
 Strip Pad

Concrete Weight Option: for Interim Installations

Screw Piles: N/A

Water Ballast Option: for Interim Installations

ACCESSORY OPTIONS

- Exit and personnel doors
- Vehicle access doors
- Vents, fans and louvers
- Solar panels
- Complete electrical and lighting packages
- Air-tight negative pressure environments
- Crane-lift packages
- Airconditioning/Heating
